- Ten memory settings features

FP **mymail™** is smart, efficient, professional, affordable, and practical. FP **mymail™** is your desktop mailing system for the 21st century. It's the latest digital, state-of-the-art desktop postage system.

KEY ADVANTAGES

PROFESSIONAL AND CUSTOMIZED MAIL

Creating a professional and customized look is as easy as the push of a button. You can add your company logo or custom advertising message to every piece of mail you send. To create a package label, simply run a self-adhesive postage label through **mymail™** and attach it to the package.

FASTER MAIL PROCESSING

Your mail will be processed faster using **mymail™** because the printed indicia is developed in accordance with the United States Postal Service (USPS) Information-Based Indicia Program (IBIP).

BUILT IN LETTER AND PACKAGE SCALE

Determining accurate postage is a snap with **mymail™** and the integrated 5lb. postage scale. It immediately sets the correct postage for most USPS Domestic Rates, Special Services Rates, and International Rates.

EFFICIENTLY ADD NEW POSTAGE

You no longer need to write checks and wait days for new postage to be added to your account. New postage can be added to this account by an electronic transfer from your bank that is governed by banking laws and the USPS to ensure its safety and security. You can also charge new postage to a credit card. The new postage is downloaded directly from your account to the FP **mymail™** with the push of a button.

Call your FP representative to order your mymail™ Digital Postage System today and ask about our family of mailing systems and solutions.

When you've got questions, we've got solutions. Our commitment to fast, attentive customer service is just one of the reasons why FP is the fastest growing USPS-approved mailing systems vendor.
